

Scooter Dock

A man with a beard, wearing a beige sweater and grey pants, stands on a sidewalk next to a black metal scooter dock. He is holding the handlebars of a yellow and black kick scooter that is docked in the frame. The dock is a U-shaped metal frame with a horizontal bar across the top. The background shows a grassy area, a wooden fence, and trees. A yellow banner at the top of the image contains the text "Scooter Dock".

- Parks up to 3 scooters while accommodating a bicycle on the opposite side
- Soft-touch vinyl coating on parking bays protects scooter handlebars from damage
- Can be directly surface mounted or is compatible with Saris Bike Corral rails
- Single bike parking position meets APBP parking guidelines
