

## Tip-Up Rack

### Overview:

Want to save space without the heavy lifting? With an integrated lift-assist mechanism, the Tip-Up allows users to easily hoist their heavy bikes off the ground for secure, compact storage — no heavy lifting required.

### Benefits:

- Pneumatic spring-powered lifting arm allows easy loading of bikes into the vertical position
- Instruction decal provides clear use direction to new users
- Locking loop provides means of securing bike using standard locks and prevents bike lowering when in use
- Vertical configuration allows smaller storage footprint compared to horizontally-oriented racks

# Tip-Up Rack

## Recommended Setbacks

### Features:

Accommodates  
1 bike

1" square tubing  
laser cut steel plate

Powder coated

28879 for anchoring to  
formed concrete walls.  
For other surfaces,  
consult installer.

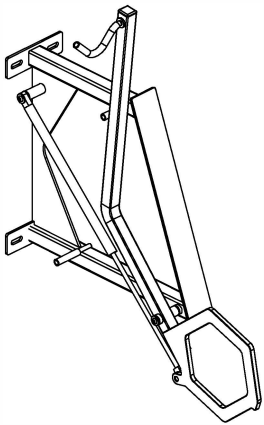

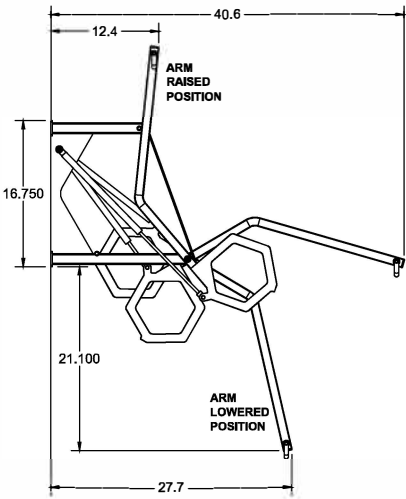

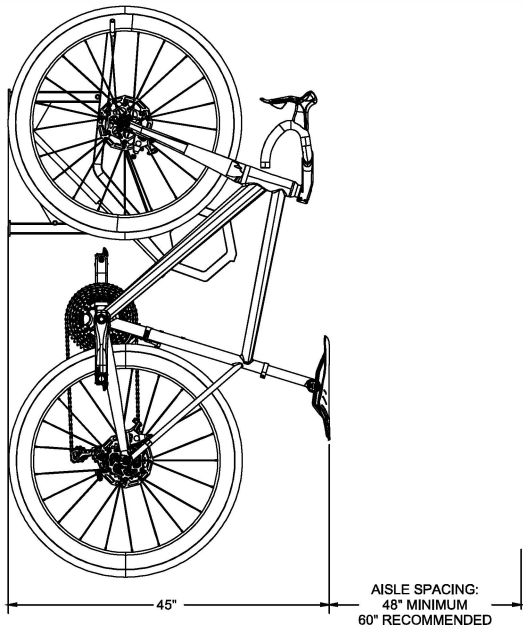

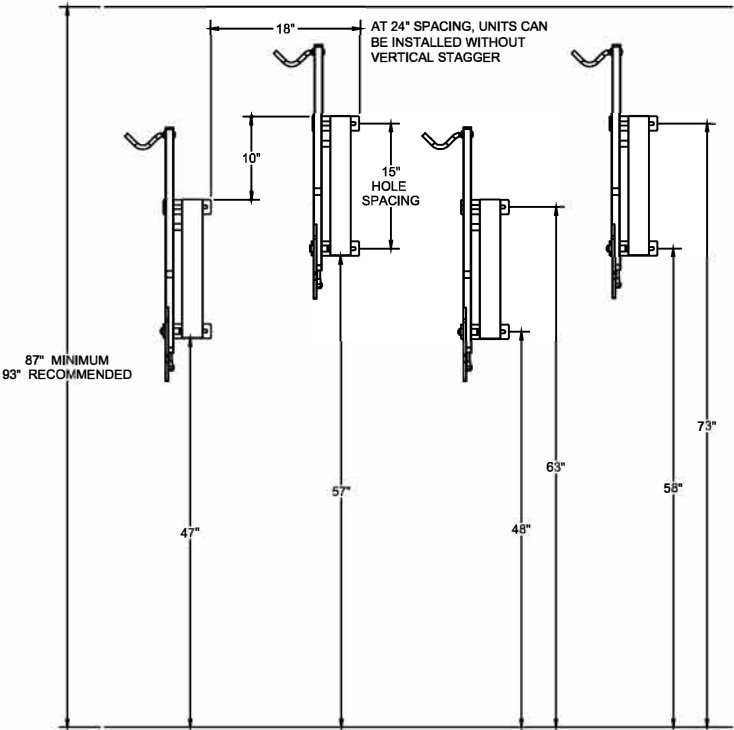

1 year  
warranty

Made in  
the USA

Anchors sold separately
